Commemoration 80th Anniversary Operation Market Garden

XXX Corps Military Remembrance Convoy Belgium/Netherlands 2024

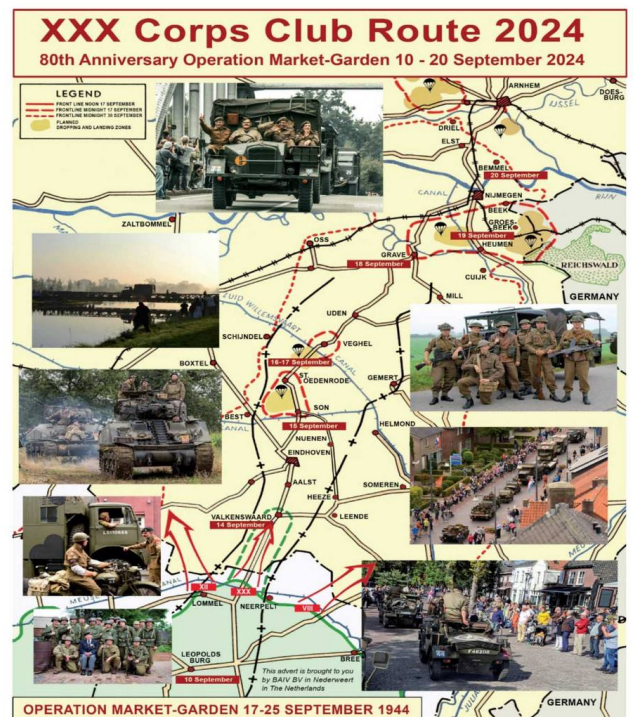

Overview of all Movements

Rev.: 1.3
Status: For Information
By: CHa
Check: IRSr
Date: 28-08-2024 (update IRSr.)

Introduction

It promises to be a unique memorial procession for both the public and participants; The XXX Corps Military Remembrance Convoy from 14 to 21 September 2024. Approximately 250 military vehicles and over 700 crew members (mostly from the United Kingdom) will participate in the 80th anniversary of Operation Market Garden. "It's will be if an old black-and-white photo comes to life".

Market Garden was a daring military operation in September 1944 to finally break the Nazi German resistance in Western Europe before Christmas. In a rapid and devastating large-scale advance of thousands of paratroopers, over 50,000 ground troops and approximately 22,000 vehicles, the Rhine and other waterways in East Brabant and Gelderland had to be crossed. Despite the fact that a large part of the southern Netherlands was liberated, Market Garden ultimately became a tragedy and Arnhem proved to be a bridge too far. The Rhine was not crossed, the devastation was enormous, and the Allies suffered heavy losses.

XXX Corps Military Remembrance Convoy Belgium/Netherlands 2024

XXX CORPS MILITARY REMEMBRANCE CONVOY

The upcoming Remembrance commemorates the advance of the ground troops (XXX Corps Military Remembrance Convoy). The tour starts in Leopoldsburg, Belgium and the route will be approximately 160 km long and will end in Bemmel.

In this tour, for which preparations have been started 2 years ago, there will be many stops for the public along the way and there will be 11 overnight camps. For safety and traffic flow, the convoy has been divided into smaller groups of approximately 25 vehicles.

The vehicles are owned by enthusiasts who invest a lot of time, money and effort in their maintenance and management. They, and many of their co-drivers, will be dressed in authentic uniforms and equipment in September, with remembrance as the central theme.

The organization wants to coordinate the tour as much as possible with official local commemorations and programs that take place in Belgium, North Brabant and Gelderland during that period.

No financial support

The event is organised by the Liberation Taskforce, which receives no financial support from the government or elsewhere and is entirely self-financed by the participants, the majority of whom come from the United Kingdom. These participants are often sons or grandsons of our liberators.

Certified traffic controllers / Police

The vehicle groups, consisting of all authentic British vehicles, are accompanied by certified traffic controllers of the Dutch SBNS Foundation (<https://mbsmotards.nl/>). Event permits/declarations of no objection have been requested per municipality and most of these have already been received or are well advanced in the process.

In consultation with the regional police services; represented by the responsible police officer for events; Mr. W. de Louw, it has been agreed that;

- provided that groups of 25 vehicles are used,
- with an interval of 10 minutes between them,
- and a maximum speed of 25 kph

the supervision of these tour can be provided by voluntary **certified traffic supervisor motorcyclists**.

Note:
If, against all expectations, there are no or insufficient traffic controllers present, a maximum group size of 9 vehicles must be maintained and a distance of 10 minutes between them must also be maintained.

XXX Corps Military Remembrance Convoy Belgium/Netherlands 2024

Purpose of this document

The purpose of this document is to give the reader a global impression of both the content of the event, the planned movements, legal aspects but also the addresses of the various overnight locations. It is therefore intended to be informative. If desired, the substantiation for this can of course also be provided on request.

What we are bringing to Belgium and the Netherlands in rolling stock on the occasion of the 80th anniversary of Operation Market Garden is without a doubt special. We have had a very pleasant collaboration with many municipalities, governments and other organisations during the process of the past 2 years. Unfortunately, we also had to deal with some disappointments here and there, which has sometimes caused considerable delays in the planning.

Commemoration is absolutely important and it is therefore our task to ensure that future generations continue to do so.

We have many family members in the convoy of those who fought in the Netherlands in 1944, who come on a pilgrimage with their vehicles to visit the places that are now part of their family's history. Sir Winston Churchill once said: **"A nation that has forgotten its past has no future"**. He also gave us the following; **"Those that fail to learn from history are doomed to repeat it"**. We cannot learn by forgetting, so let us do everything in our power to make it a memorable commemoration and to give the descendants of your British liberators a warm welcome.

Trusting that we have informed you sufficiently,
Sincerely yours,

Gerald D Przenislowski

Chairman LTF

Commemoration 80th Anniversary Operation Market Garden

XXX Corps Military Remembrance Convoy Belgium/Netherlands 2024

Insurance / Admission to public roads

A Legal Liability Insurance (Event Permit) has of course also been issued for the event.

In addition, all participating vehicles of the participants have a valid license plate, are road legal, so that they are allowed to travel on public roads. Their owners have at least a statutory liability insurance.

Weapons, cannons and ammunition

With regard to the weapons, cannons and ammunition to be carried on the march (whether or not deactivated), the Dutch Ministry of Justice and Security has granted permission for, possession, exhibition, transport and carrying of historically correct and period-appropriate military (fire)arms for the purpose of:

- Carrying out re-enactment activities,
- Participating in commemorative marches and/or exhibitions with historical military equipment (displays)
- Firing salutes.

Number of groups

The operation consists of 12 packages of maximum 25 vehicles:

- **A Squadron:** Guards Armored Brigade (tracks including tanks)
- **B Squadron:** Guards Armored Brigade (tracks including tanks)
- **C Squadron:** Armored Brigade (tracks including tanks)
- **D Company:** Armored Brigade (wheels)
- **E Company:** Reconnaissance Brigade (wheels)
- **F Company:** Princess Irene Brigade (wheels)
- **G Company:** Reconnaissance Brigade (tracks)
- **H Company:** Logistics (wheels)
- **I Company:** Guard Reconnaissance (tracks)
- **J Company:** Royal Artillery (wheels)
- **K Company:** Logistics (wheels)
- **L Company:** Logistics (wheels)

Note: in the above Half-track vehicles are classified as wheeled vehicles.
